CONFERENCE OVERVIEW

WHO WE ARE?

The Jubail Corrosion Conference, a biannual event hosted by the AMPP Jubail Chapter in Saudi Arabia, represents a pivotal gathering in the field of corrosion and its control. This conference is distinguished by its focus on critical aspects and innovative solutions related to corrosion, making it a significant event for professionals and researchers in this field.

OUR GOALS

This conference is distinguished by its focus on critical aspects and innovative solutions related to corrosion, making it a significant event for professionals and researchers in this field.

CONFERENCE TOPICS

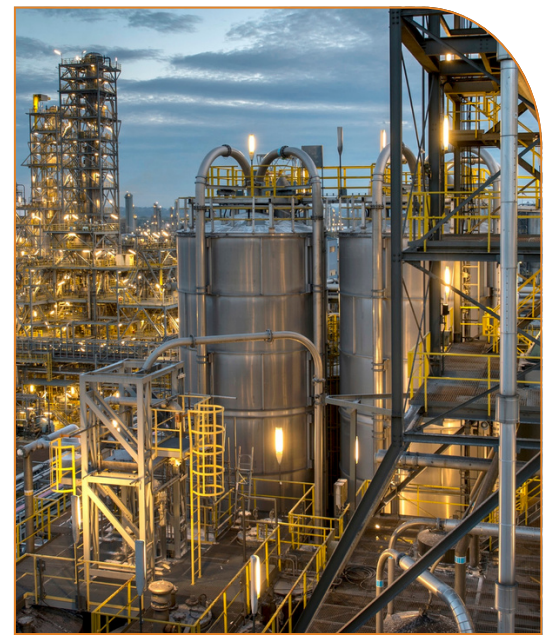

The conference covers a wide array of topics, each addressing crucial elements in corrosion management and prevention:

- Asset Management Through Digital Transformation.
- Advances in the Use and Application of Non-Metallic Materials.
- Protective Coatings – Challenges and Opportunities.
- Corrosion Prevention and Protection of Civil Assets.
- Water and Process Chemical Treatment Programs.
- Corrosion and Materials Research and Applications.
- Advances, Challenges and Field Experiences with Cathodic Protection.
- Corrosion in Refining, Petrochemical and Chemical Industries.
- Material Performance and Sustainability.
- Advanced Non-Destructive Technologies and live monitoring/inspection systems.
- Corrosion Management by Artificial Intelligence.

WHO SHOULD ATTEND?

The Jubail Corrosion Conference would be highly beneficial for a diverse range of professionals and stakeholders involved in corrosion control, management, and research. The following includes those who should consider attending:

Managers, Supervisors, Maintenance and Inspection Engineers in all Industrial Sectors, Construction and Project Engineers, Quality Assurance Managers, Contractors, Asset Integrity and Reliability Engineers, QA/QC Engineers, Academia/R&D, Coating and Painting Inspectors, Specialists, and Technical Sales Representatives.
